REPORT OF LIBRARY TRUSTEES

The trustees of the library report another year of steady growth in the use of the town's library facilities. The librarian's report will give the figures which average about a 20% increase on 1964.

We are especially interested to note the use this year of the library to introduce the younger pupils of the schools to the purpose of the library. This has been ably presented to them by the assistant librarian, Mrs. James Forrest. She has spent many mornings with thirty to forty youngsters at the library, besides her numerous school visits. She has been chosen by the board as assistant librarian of the new library where we hope she will continue in her children's work.

We have spent a good deal of the year 1965 in preparing to go into the new library with a skeleton staff at least partially trained for the task. Our present roster of employees is as follows: Miss Alice Hall, Mrs. James Forrest, Mrs. Karl Wolfe, Mrs. Earl Woodbury, and Mrs. Louis Wefers. None of these are full time employees, except Mrs. Mary Forrest. This gives us two employees on duty the later part of the afternoon and evening when the library is the busiest, and this also is better for safety and disciplines sake. Mrs. Sharon Jensen is leaving the library temporarily for personal reasons. Our attempts to find a librarian for the new library have been without results thus far. We shall continue in this effort believing that your library needs the type of supervision that can only be given by a person with a broad education, and who has been especially trained in library work.

As to the new library itself, we have been as upset as the general public that more and faster progress has not been made. Certainly we do not feel that the thirty days required to change the site plans when it was requested that the building be moved back thirty feet, or the delay in not being able to get the steel as early as it could have been used are enough to explain the slowness of its erection.

Our hope now is that we will be able to dedicate our new library by the first of May.

SALEM PUBLIC LIBRARY

To the Citizens of Salem, it is with mixed emotion that I prepare this report. You may recall that it was my anticipation that last year's report would be not only the last from the little library on Main Street but also my last, as your Librarian.

Due to circumstances beyond our control, we continue to serve the Town from the old library but have every anticipation that 1966 will see the move to the new library. I have tendered my resignation as Librarian but have agreed to stay on pending selection of a new Librarian by the Trustees.

EDUCATION AND TRAINING

We are continuing our in-force training program, featuring Riots and Crowd Control, in conjunction with the Rockingham County Sheriff's Department.

Several drills have been held during the past year and this type of training will continue.

At the earliest opportunity a program of the legal aspects and proper police procedure will be held with instructors from all levels of law enforcement.

TRAFFIC CONTROL AND HIGHWAY SAFETY

Route 28, both North and South Broadway, including the Depot area, continues to be a serious problem. We can expect some degree of relief when the Veterans Parkway is completed, thereby diverting a considerable amount of traffic from Route 97, which at the present time is causing serious congestion in the Depot area.

The commercial enterprises on Route 28, will attract 20 to 25 Thousand customers daily to this area, creating a serious traffic problem and affording the opportunity for a substantial increase in Criminal Activity. We can expect additional stores and shopping areas. This will require added personnel to cope with this problem.

The Community has experienced unprecedented growth and with it, has come the responsibility for adequate law enforcement. This function of municipal government must be maintained efficiently.

The Depot area still remains our greatest source of accident potential. We need a new traffic control unit, with the signals set on steel standards and the size of the lens increased to improve visibility, similar to the signal now in effect on Route 28.

A concerted effort should be made during the coming year to provide the community with a town directory, with a complete list of residents 20 years and over; business listings and a revised street directory. It would be invaluable to all.

LAWS AND ORDINANCES

Some effort should be made to bring our Parking Ordinances in con-

formity with the State Law. A comprehensive study of Town Ordinances and By-laws could be included.

Very truly yours,

EVERETT B. DOWE
Chief of Police

FIRE DEPARTMENT OF SALEM, NEW HAMPSHIRE

Mr. Frederick T. Staples
Town Manager
Salem, New Hampshire

Dear Mr. Staples:

During the year 1965, the Salem Fire Department responded to 655 alarms, 349 still and 306 box alarms, an increase of 39 alarms over our previous record year 1964. The ambulance answered 488 calls, an increase of 137 calls over 1964.

With the continued population growth and the resulting increase in construction, it is necessary that the town provide proper protection for lives and property. Recent statements indicate that our population is approximately 18,000 and value of property is \$76,000,000. This rapid expansion has greatly increased the services required of the fire department. A review of the last five years clearly indicates the trend.

During the past year, the department continued its training sessions. Our drill instructor, William Kingdon, again attended training sessions at the University of New Hampshire. Inspector Henry Borchers attended a special course on Arson Investigations at Rutgers University. Several other members of the department attended the fire school sponsored by the Meadowood County Area Fire Department in Fitzwilliam, N. H. Training sessions are most important in developing and maintaining the efficiency of the department in the use of its equipment and apparatus.

It is again necessary to report on the deficiencies in the department. They are: the need of additional permanent firemen; a sub-station south of the Spicket River which would house a Class A Pumper; and the purchase of either an Aerial Ladder or Snorkel. It is important to realize that a well-equipped fire department plus well-trained firemen are factors in attracting new industry to a community.

The fire department is anxiously awaiting the completion of the new central station. Plans are being formulated for an "open house". The department thanks the citizens of the town for their loyal support, interest and cooperation.

The services of the visiting nurse are available to every resident of Salem regardless of age or financial status. A nominal fee is charged to those able to pay but care is not refused to anyone unable to pay. The nurse can adjust the fee according to need for anyone who can only pay partial payment.

All nursing services are performed only with the permission of the family doctor and written orders are necessary for all treatments.

Requests for the services of the nurse may be from the hospital, the family doctor, the patient, the family, or a community agency.

The program of the nursing service includes: bedside nursing; instruction to the family in the care of the patient; medications by injection; changing of dressings; irrigations; orthopedic supervision; diabetic teaching; also care of the newborn.

The nurse works Monday through Friday from 8:00 A. M. to 5:00 P. M. She may be contacted by telephone from 8:00 A. M. to 9:00 A. M. and from 1:00 P. M. to 2:00 P. M. at 898-4737.

YEAR - 1965

The Board of Selectmen
Salem, N. H.
Frederick T. Staples, Town Manager

Gentlemen:

During 1965 the Planning Board held twenty-four meetings and ten public hearings. Several field trips were made to view subdivision construction.

Construction of improvements in subdivisions amounted to approximately \$170,000.00.

It should be realized that although the contractor passes on the initial cost of these improvements to the new home owner, there are additional costs incurred which do not show up immediately. For each new service which is added the town must at some time increase its water treatment, pumping, storage and central distribution capacity; for each new home which is added additional burden is placed on our existing road system which will need to be modernized and improved.

At the year's end the Board's files contain 658 available lots on approved definitive plans and 729 lots on preliminary plans, submitted to the Board.

The Board wishes to express their thanks to all of the Town Officials for their courteous help.

Respectfully submitted,

FRANK H. MONROE
Chairman

REPORT OF THE SALEM CONSERVATION COMMISSION

The Salem Conservation Commission came into being with the unanimous acceptance of Article 23 at the 1965 Town Meeting. On April 13, 1965 the Selectmen appointed Laurence Belair for one (1) year, James Falls for two (2) years, and Kenneth Folsom for three (3) years. The Commission organized on May 3 with Kenneth Folsom being elected as Chairman and Laurence Belair as Secretary.

Members of the Commission have attended the following meetings during the year:

Forestry Forum, Southern New Hampshire in Manchester on May 11, 1965.

The 64th Annual Conference of the Society for the Protection of New Hampshire at Mt. Sunapee State Park on October 1, 1965.

The Commission met with the Salem Recreation Committee and with the Conservation Committee of the Salem Garden Club during the year to discuss items of mutual concern.

During November, Scouts of Troops 140, 159, and 160 cleared a large area of woodland adjacent to the new Municipal Office of deadwood, underbrush, and scrub pine under the direction of the Commission. This phase of our activities will be continued in the spring.

We are presently working for the acceptance of regulations on top soil and gravel removal and considering the possible advantages of cluster zoning in Salem. We are sponsoring an article in the Town Warrant to authorize the planting of shade trees along Geremonty Drive and at the Common.

Respectfully submitted,

KENNETH E. FOLSOM, Chairman
Salem Conservation Commission

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Salem:

I am presenting herewith my Tenth Annual Report as Superintendent of Schools in Salem. A report from the Principal of the Salem High School, as well as statistical information, is listed separately.

PERSONNEL

There were forty teaching positions filled this year in Salem, plus two assistant principals. Twelve of these positions were filled in the high school; eight being replacements and four being additions. There were six changes in the junior high; five were replacements and one addition. There were twenty-four changes in the elementary schools; fifteen replacements and nine additions. Four of these positions were filled by former Salem teachers, two returning after leaves of absence.

This past year fifteen of the teachers hired were beginners. In recent years the beginners made up about one half of the number of teachers hired. We do not have enough experienced teachers applying. If teachers' salaries becomes a point of discussion, we should realize that in hiring beginning teachers we need to keep in line with neighboring communities. A second fact should be considered - that is that gradual increases have less an impact than a larger increase in any one year.

One of our elementary teachers was presented by her principal as a candidate for the Teacher of the Year for New Hampshire. She was not elected, but I am happy to say that she was one of the top finalists. I appreciate the fact that her principal thought well enough of her dedication and service to nominate her.

RECOGNITION

"Are good things happening in our schools?" The question is asked and answered in the affirmative by the New Hampshire Council for Better Schools in its second annual recognition of leading practices being carried on in our public schools.

At a recent Achievement Awards Program in Concord, thirteen projects in eleven school districts were honored as outstanding examples of noteworthy accomplishment. They were chosen from an imposing list of more than forty instances of significant projects which illustrate what all schools are doing.

Supervisory Union #55 was honored in two instances for the development of an effective set of curriculum guidelines, and for its comprehensive Teachers' Handbook.

FEDERAL AID TO IMPROVE OUR CURRICULUMS

The Elementary and Secondary Act of 1965 allots \$2.3 million to New Hampshire under five titles. Salem has the opportunity to benefit under three of these titles.

Under Title I Salem expects to receive \$9,565.24. We plan to expand our remedial reading program for grades 6 - 8.

Under Title II Salem, along with the other school districts in Union #55, plus the parochial school, will receive \$8,573.40 for school library resources.

Under Title III we may be involved in supplementary educational centers and services. This part of the act would improve education by enabling a community to provide services not now available to all of the children who live here; raise the quality of educational services already offered; and stimulate and assist in the development of exemplary school programs to serve as models for regular school programs.

Monies for Titles IV and V will be used for educational research and training on a state level, and to strengthen state departments of education.

Salem will also benefit under other Federal Programs, particularly "Headstart". The Office of Economic Opportunity sponsors this program for pre-school children, from low income families, who plan to enter school in September, 1966. This program will take place next summer, and Salem will be eligible for two classes of approximately fifteen children each.

It is hoped that Salem can benefit from the expansion of Title III of the National Defense Act. This matching grant program, first enacted in 1958, gets major credit for the improved school programs in science, mathematics, foreign languages, guidance and counseling. Last fall, the N. D. E. A. Amendment added history, civics, geography, English and reading as local programs eligible to receive matching-basis grants. The catch here is that the State Department of Education must have specialists in these fields to process the requested projects, and the Legislature and Governor deleted these items from the Department's budget. It is hoped that they can get these people now through the Elementary and Secondary Act.

There has been a lot of controversy over whether or not local school districts should accept Federal aid because of a possible loss of local control.

We have benefited from Federal aid in the past with only a minimum of control. This control, however, is to assure the Government that we meet certain standards, and use the money for which it was appropriated; such as, for enrichment, or for the poverty stricken, or within certain stipulated subject areas, or for impacted areas, or for vocational training, among others. I see no harm in this type of aid.

If history repeats itself the Federal Aid programs will be extended and increased, and more money will be available to keep in the area of curriculum.

One project that is most worthwhile, and one that we are pioneering in New Hampshire, and one that has far reaching implications, is the so-called Multiple Occupations project for the older members of our special education class. This may be expanded to include the potential drop-out. The Vocational-Rehabilitation Division of the State Department of Education has assured us of their support, financial and otherwise, and we will devise a curriculum to improve the workable skills of these pupils, and, more important, arrange for work experiences, for which they will be reimbursed, in some instances. The State Department will help us coordinate the program. One of our guidance personnel is heading up the project. He has a part-time secretary. The Adult Council has offered us their support and, most important, we are not ending the education of these pupils at sixteen years of age with no opportunity to become self-sufficient.

We believe the community will benefit, as well. We hope the business establishments will cooperate. We need their help. They will be approached by Mr. Ronald Lawton, Guidance Counselor. Please listen to his story. If our project is successful, it will be tried in other areas of the State.

Six students this year are enrolled at the Haverhill Trade School. They are given the opportunity to learn a trade. At present the Salem School District pays their tuition if they receive a final average of C or better.

This is an excellent program. We do not offer a similar one in Salem. I believe, however, that we should pay the tuition for all pupils who have gained admission. We place no similar restrictions on our own students who attend Salem High School.

We are doing some research in the area of ungraded classes for the primary grades. If we can improve the reading level of the pupils with this program, then we should strongly consider it. An elementary school is judged by the reading level of its pupils.

The high school is now able to offer physical education for all students. An additional course in art, and, for the first time, an electricity-electronics course, and a metal machine shop course.

The United States Commissioner of Education last fall in Honolulu, speaking to the Council of Chief State School Officers, listed the new National objectives which, I believe, are worth repeating: 1. To raise the quality of education in our schools everywhere. 2. To bring quality of educational opportunity to every child. 3. To provide vocational and technical training that is geared to the economy and technology of today and tomorrow. 4. To make college and university study possible for all young people who can benefit by it. 5. To bring our educational resources to bear directly on problems in our communities.

HOUSING

The Salem High School opened its doors to 887 students on December 20, 1965. This made it possible to transfer 27 classes to the Woodbury School on January 3, 1966. Twenty-four classes were in rented quarters and three classes were quartered in three elementary cafeterias.

Other than three housing problems for special service classes, we have solved our housing shortage for 1965-66. We were late, but we have almost caught up.

The sad fact is, we failed to vote a school last March and last September, and now face the need to rent up to twelve classrooms for September, 1966. Our projections continue to show a need for ten to twelve classrooms each year. Over 300 building permits for 1965 indicates the trend is not changing.

If we vote an elementary school in March, 1966, we may need to rent classrooms for only part of the year. Money used for rented quarters should be used for bond payments.

At this time, I would like to publicly express my appreciation to the various churches and the Fish and Game Club for being most cooperative in providing space for us during this critical period.

The need has not changed for at least three elementary schools by

1970. These schools will permit us to keep our elementary pupils in their own neighborhoods. Most of the pupils will be able to walk to school, and our transportation costs should be less.

We do not need any frills in our schools, but we should offer facilities to meet future curriculum needs that will include an all-purpose room for physical education, and a library, plus the service rooms now provided in each school.

We are very pleased with the facilities now available in the new-type school. The School Board and the citizens should be congratulated and justly proud of Salem's newest school.

BUDGET

Salem continues to grow. Our enrollment is 3,419 - an increase of 305. Our census figures revealed 6,359 persons in Salem, age one day to eighteen years old - an increase of 657. We increase about 12% each year. We added a new high school containing approximately 135,000 square footage.

Our tax base increased 5% - 6%. This increase is not sufficient to offset the increased cost to educate 305 more pupils and maintain a new high school.

What does this mean? It actually means an increased tax rate, which disturbs us all. However, it cannot be avoided if we do not wish to lower our educational standards, and I do not believe that you, as citizens, wish to do that.

My emphasis this year will be to hire enough personnel to maintain our present class size in all areas, and to permit us to offer additional courses in the high school now that we have the necessary facilities, and to provide the additional books and supplies needed for the increased enrollment.

Again, I wish to go on record as saying that the State of New Hampshire should pay a larger proportion of the cost of education in order to relieve the property tax burden.

CONCLUSION

Appreciation is expressed for the continual support of all local organizations, and individuals. Helping to beautify the grounds, honoring special groups, presenting scholarships, presenting equipment to the schools, presenting worthwhile books and records to the school libraries are commendable. Please accept my personal thanks and the thanks of all of those who worked with me.

In conclusion, I wish to thank the School Board, my staff, principals, teachers, and pupils for their help in making the work of this school in Salem pleasant and successful.

Respectfully submitted,

WENDELL V. DAVIS
Superintendent of Schools
